SOURCE EVALUATIONS ARE DEFINITIVE APPRAISAL OF CONTENT IS TENTATIVE

1. Five photographs of Soviet naval vessels at Swinemünde
[redacted]
2. Photographs one and two show a nest of MTBs alongside the west bank of the river at Swinemünde. Photographs three, four, and five show two Soviet minesweepers, which were observed [redacted] conducting exercises at the approximate position N 53-58, E 14-16. Each vessel was approximately 200 feet long and had a break in the forecastle slightly aft of the bridge. Each vessel had one long, fairly thin stack well aft of the bridge, a pole mast rising from the bridge, a small pole mast aft, and each vessel appeared to have one small gun mount forward and one mount aft, caliber unknown. [redacted] the vessels were presumed to be Soviet.
